

Our Services

BACKFLOW ANNUAL TESTING

At DEP Backflow Inc we offer comprehensive annual testing, including filing a GEN-215B report, for your backflow device, so you can avoid violations. We ensure that your backflow device is in compliance with NYC DEP Cross Connection.

VIOLATION CLEARANCE

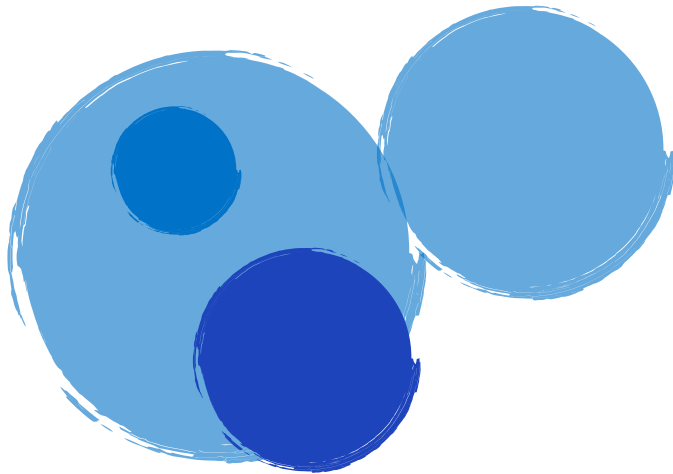

Our experts handle all your violation needs by representing you at the ECB/OATH hearing. Empowered with deep industry knowledge and experience, we negotiate, settle fines, and clear.

BACKFLOW REPAIR & MAINTENANCE

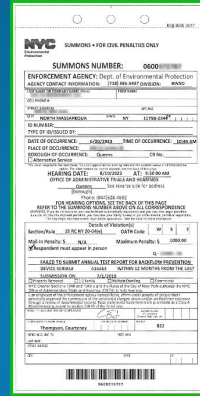

Backflow/RPZ devices are prone to wear over time and eventually require repair. DEP Backflow Inc specializes in diagnosing and targeting problems in faulty devices. We back our repairs with a free testing at the conclusion of the job.

BACKFLOW INSTALLATION

DEP Backflow Inc is your top choice for the installation of the Backflow RPZ, should you receive and order from the NYC-DEP. Our certified technicians install all types of backflow devices, in accordance with the NYC DEP Cross Connection.

Annual Backflow Testing by Dep Backflow

According to NYC-DEP backflow testing should be done every 12 months from last time of testing.

Dep Backflow Inc can help you avoid a **\$1,000 fine per device along with a court order** that can be imposed by NYC-DEP for failing to conduct an Annual Backflow Test on a property.

Our experienced field technicians at DEP Backflow Inc will help you with the compliance and the mandatory annual Backflow testing.

Dep Backflow Inc will perform a comprehensive backflow test and file it with the DEP.
Each year Dep Backflow Inc will keep you updated when your annual testing is due.

Did You Get an Order to Install Backflow Prevention Device?

At Dep Backflow Inc, we specialize in backflow installation from filing plans with NYC-DEP to get them approved all the way through the actual installation and the sign off with NYC-DEP and NYC-DOB. At Dep Backflow we strive to have our customers at ease throughout the process. We keep you constantly updated through every step so you can plan accordingly.
