SPECIALISTS

MULTI-FAMILY HOUSING

## ◦ FROM CONCEPT ◦

- **When an amenity becomes a necessity**, you need a partner who knows all the ins and outs of building the right facility for your specific needs. Fitness centers for an active aging community are different than what residents of a condo hi rise need and want.
- **Space costs money.** Gym Source can optimize your floor plan to get the biggest bang for the buck. And...we know what you need for regulatory compliance...like how much space is required between treadmills and where special plugs are needed.
- **A great fitness center is a selling tool** for your development. Use Gym Source expertise to differentiate your facility.

## ◦ TO COMPLETION ◦

- **Don't lock yourself into a single brand.** Choose from best-in-class products across multiple manufacturers.
- **Installation is a big deal.** Even the best products won't perform properly unless they are installed correctly. We deliver in our own trucks and install with Gym Source people.
- And...Gym Source has a robust **inventory ready for immediate delivery** in case you have a last-minute request.

## ◦ AND BEYOND ◦

- Gym Source is recognized as the #1 Multi-Family service organization in the Fitness Industry. **Service after the sale** is a priority at the Gym Source and we do everything to make sure there are no *out of order* signs in your gym, including **preventive maintenance** and **fast repair service**.
- Gym Source provides a single point of contact for all your facility's needs. We don't just carry big equipment—we have the latest **innovative accessories** like NuBells and HyperIce.
- Plus, our **guaranteed trade-in program** gives you more value at the end of the life of the product than any other choice in the market.

Whether the project is large or small, Gym Source is an invaluable resource to Vesper as they manage the fitness facility from initial concept to finished product. Products are interchangeable. The most value added aspect to working with Gym Source is their ability to design the ideal space from a standpoint of form and function."

— Vesper Holdings  
New York City, NY

In many instances it would be enough to get a fair price, a good product, and quality service, but you at Gym Source have allowed us to build a stronger community and enhance resident services beyond our wildest expectations."

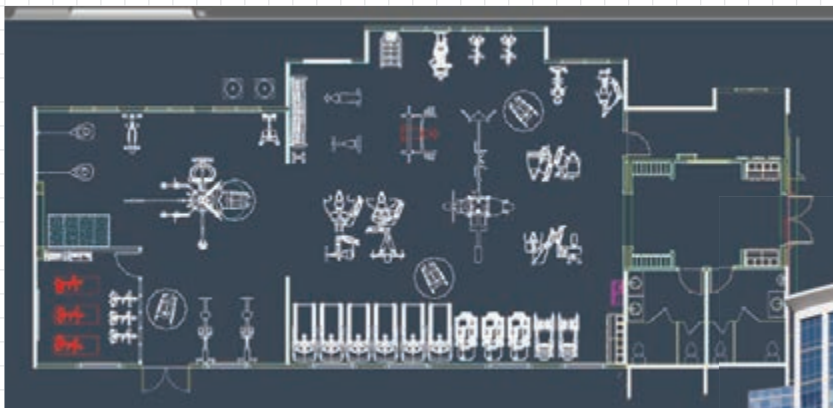

— Alyssa Rohdie, HRH,  
Rohdie Group

### THE SKETCH

Proper planning for your space is an integral part of our process. Success begins with a deliberate approach to match the needs of your residents to your available space and budget.

### THE FLOOR PLAN

We speak AutoCAD. We will work with your architect, sending and receiving plans in the format they like to work in, to design and layout the fitness facility that will exceed your expectations.

### THE 3D RENDERING

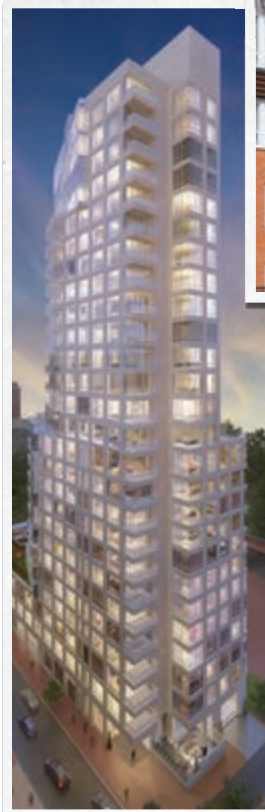

Show your stakeholders exactly what your fitness facility will look like and feel like with our 3D renderings and 3D fly-throughs.

### THE COMPLETION

Our expert logistics and installation team will bring your plans to life. Put your trust in Gym Source to design, install and maintain your new state-of-the-art fitness facility. It is what we do. Why do we use it?
