

ARGO UNIVERSITY: CLIMATE MOBILIZATION ACT FOLLOW UP

NOVEMBER 5, 2019

Please be our guest...

With new regulations being passed by the city council left and right, it can be difficult to be sure your building is remaining in compliance. This Argo University will focus on upcoming issues, as our panelist of compliance and energy professionals unpack the most pressing concerns regarding new laws. We will cover emissions caps and new systems of “grading” buildings, so you can learn how your building might be affected. Join us as we answer your questions about compliance and your building.

Refreshments will be provided!

FEATURED ARGO PANELIST:

Jessica Tusing

COMPLIANCE DIRECTOR

GUEST PANELISTS FROM:
