

Maxons Restorations, Inc.

Long recognized as a proven and innovative leader in the property damage restoration industry, MAXONS has the specialized expertise, resources and capabilities to help our clients successfully recover from all types of disasters.

Experience

MAXONS has been restoring property damage to commercial and residential properties throughout the Northeast for more than half a century. We have a full range of services tailored to minimize the damage, disruption and expense associated with property loss.

Communication

Immediate and accurate information about your project is critical to help you making informed decisions about your recovery. MAXONS provides all project related information using our Eye of the Storm™ on-line project management system so you have the information you need to stay in control of the situation.

Response

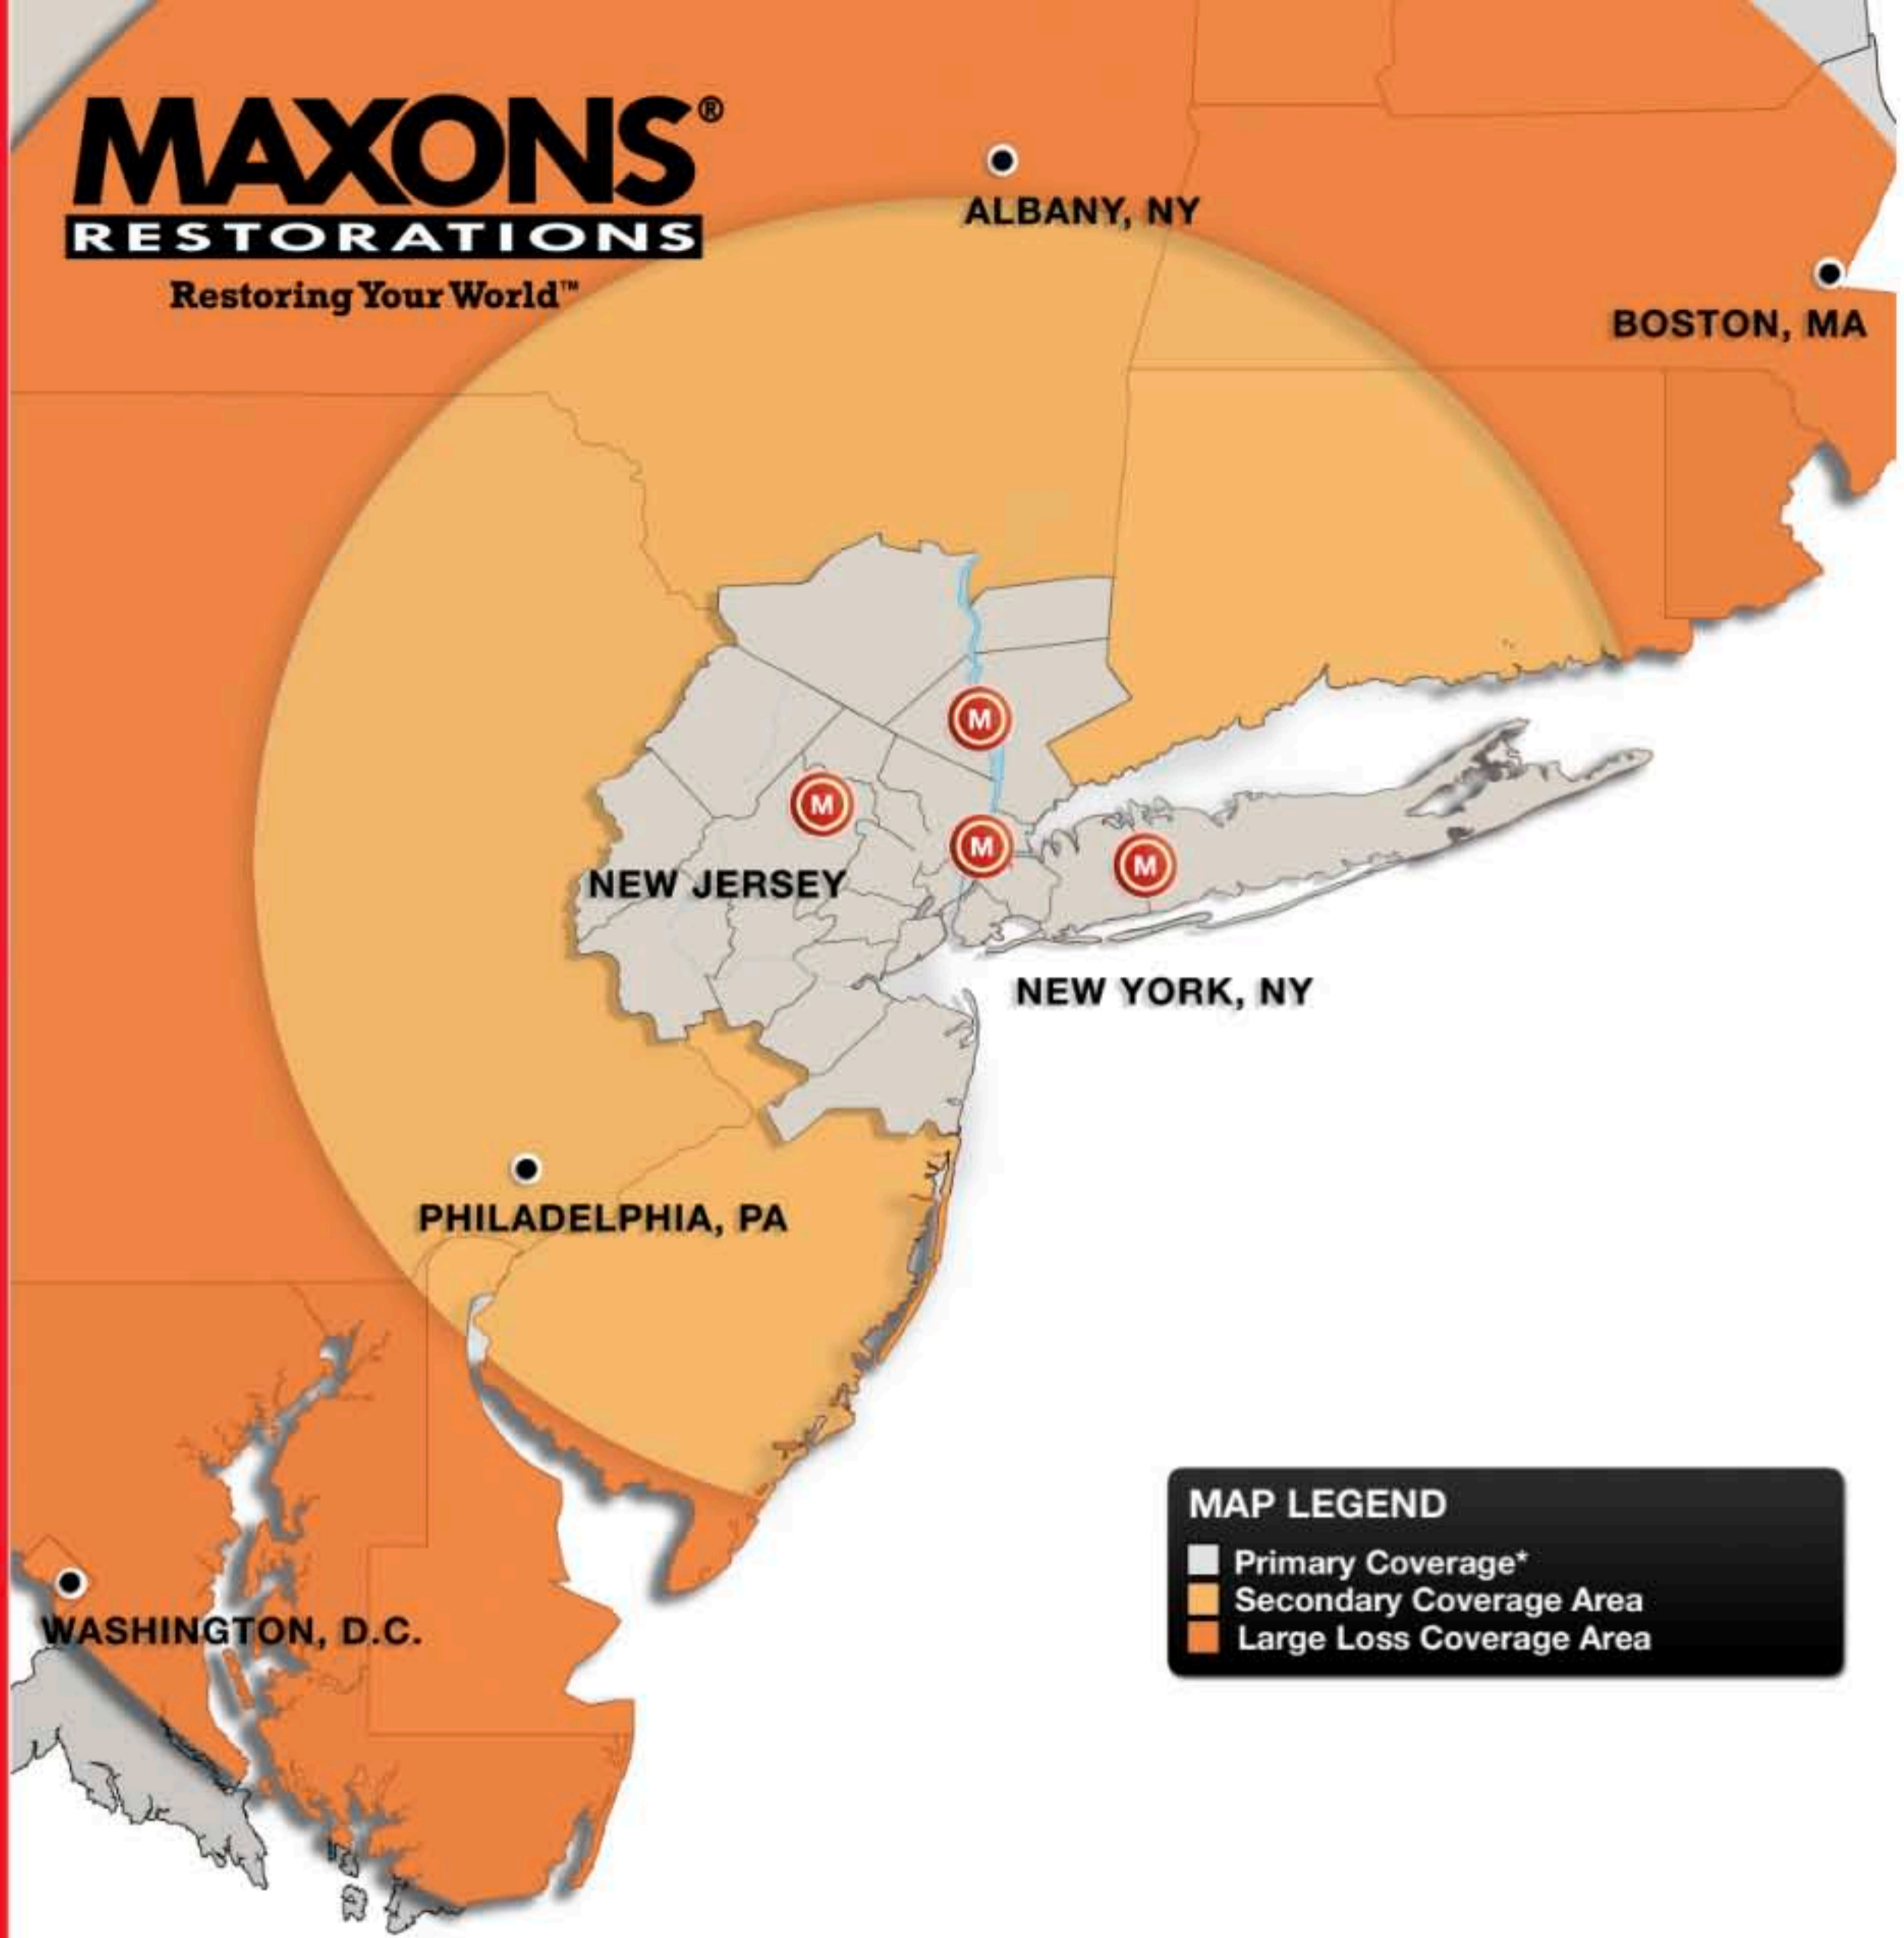

When disaster strikes, an immediate response is critical to limit the loss. When you call MAXONS, you will be speaking with an experienced project manager within 3 minutes to receive an initial loss assessment, have service en route within 2 hours and have critical project data delivered to your desktop within 1 day. That's our 3-2-1 Rapid Response Guarantee.™

Cost

MAXONS uses Xactimate® estimating software and pricing data, which is widely recognized by insurance companies and used as a standard in the insurance repair industry. MAXONS comprehensive loss reports provide a clear description of the project scope with detailed pricing information so you never have any unpleasant surprises.

Responsibility

We can apply the most environmentally friendly and lowest impact restoration techniques using our industry leading GreenClean™ restoration program. Our compliance with all local and national environmental protection laws ensures you fulfill your commitment to the health and safety of our environment.
