

# COMPLETE ENERGY MANAGEMENT AND LOCAL LAW COMPLIANCE BY RKB GROUP

(a minority-owned business)

## TECHNICAL ASSISTANCE FOR CAPITAL PROJECTS

Bridge the gap between your Energy / Local Law 97 Study and target reductions with the highest-value capital projects. RKB will help design, calculate cost savings, assess operations and maintenance implications, vet contractors, and capture utility incentives.

## NYSERDA FUNDING AND STATE GRANTS

Leverage NYSERDA's On-Site Energy Manager program for 75% subsidy, FlexTech study funding, or other state programs to help pay for energy initiatives.

## UTILITY INCENTIVES

Incentives will reduce the cost of your capital projects. Utilities offer bonus programs for certain building systems and/or incentive "adders" in various geographic areas.

## LOCAL LAW 97 ASSESSMENTS AND PRESCRIPTIVE MEASURES

## BENCHMARKING / BUILDING GRADES

## OTHER SERVICES

Employ the use of Demand Response, bill auditing, competitive energy procurement initiatives to further reduce operating costs or generate additional revenue.

## PROJECT TYPES

- HVAC and Mechanical
- Window Systems to Reduce HVAC Loads
- Weatherization and Air Sealing
- Heat Pumps and Clean Heat Technology
- EV Charging
- Solar PV
- Waste Heat Recovery
- LED Lighting
- Refrigeration Equipment
